MediClin Klinik (Hospital)
am Brunnenberg
Bad Elster (Germany)

Specialised Hospital with Departments for:

- Cardiology
- Orthopedics
- Neurology

We live medicine

Prevention | Acute | Rehabilitation | Care

MediClin – A company of the Asklepios Group

The traditional hospital, now situated in a new building with all necessary equipment for modern medical service and good ambiance, in addition to the departments of cardiology and orthopaedics has been adding the department of neurology some years ago.

About 100 patients can be treated in all phases of neurological rehabilitation including the so-called phase B / early rehabilitation which requires equipment and capabilities of an intermediate care unit like monitoring and care for patients with tracheostomy.

The patients will attend the wards due to their clinical and neurological conditions.

Some of the main focuses of the indications are caring for patients with / after:

- **Stroke (any kinds)**
- **Neurosurgical operations like brain tumors, haemorrhage**
- **Lesions of central nerve system, spinal cord and peripheral nerves**
- **Degenerative and demyelinating diseases (multiple sclerosis, Parkinson's disease)**
- **Infections of the central (CNS) and the**
- **peripheral nerve system**
